

High-Efficiency Heat Pump with Comfort Speed™ Technology

Up to 18.5 SEER | Up to 10 HSPF | ASZC18

Premium **Amana**Brand Quality

High-Efficiency Compressor

HIGH-EFFICIENCY HEAT PUMP

ASZC18 | Up to 18.5 SEER | Up to 10 HSPF

Distinguishing features:

ComfortBridge™ Technology Compatible

When your new heat pump is paired with an **Amana** brand gas furnace with **ComfortBridge** technology, performance data from the spilt system is gathered and used to make automatic adjustments that may help reduce the amount of energy used to cool your home.

Always in pursuit of innovative ideas, our engineers have designed **ComfortBridge** technology to help your entire HVAC system cost-effectively operate at peak performance — providing consistent energy-efficient home comfort. **ComfortBridge** technology works with any single-stage thermostat to help create customized indoor comfort specifically for you and your family.

Copeland ComfortAlert™ Diagnostics Module

Engineered into all premium Amana brand units, ComfortAlert enables the performance of your heat pump to be remotely monitored by your HVAC contractor. Proactively detecting operational deficiencies and potential systems issues not only helps ensure uninterrupted comfort; it prevents minor service requirements from becoming major repairs.

Energy Efficiency

SEER or Seasonal Energy Efficiency Rating is a measure designated by the U.S. Department of Energy and gives you a good idea of the performance you can expect from air conditioners and heat pumps. At an up to 18.5-SEER cooling rating, the Amana brand ASZC18 Heat Pump can deliver up to an impressive 10 HSPF (Heating Seasonal Performance Factor). When you choose an energy efficient Amana brand heat pump, year-round indoor comfort is combined with yearround savings

A reputation that's as comforting as our products

While the energy-efficient performance and reliability of an **Amana** brand ASZC18 Heat Pump will validate your purchase decision with dependable indoor comfort for years to come, it's the venerable **Amana** brand name that lets you be confident today. From our world-class engineering and comforting craftsmanship to our legendary limited warranties* and many other distinguishing factors, buying **Amana** brand means you can be certain you made the right decision.

SEER-ious savings—higher energy efficiency, lower operating costs

Get both better performance and lower energy bills compared to lower SEER heat pumps with a properly matched and installed **Amana** brand ASZC18 Heat Pump. It's our top-of-the-line heat pump up to 18 SEER, and the higher the SEER, the greater the efficiency. Chances are your current indoor comfort system was less than 18.5 SEER when it was new and has been gradually losing its effectiveness over its lifetime. So, your savings could be significant.

Quietly pumping out years and years of continuous comfort

At the heart of the **Amana** brand ASZC18 Heat Pump's dependable performance is its high-efficient compressor. Featuring premium compression technology and overload protection, its noteworthy durability and reliability are further enhanced by the use of chlorine-free R-410A refrigerant. Plus, an acoustically engineered, high-density foam sound-reduction cover mutes the compressor's operation to the point of comforting silence.

The security of the **Amana** brand's amazing warranties

To truly seal the deal, **Amana** brand heat pumps are backed by industry-leading limited warranties* which combine to offer homeowners a level of purchase protection that's the stuff of legend.

* Complete warranty details available from your local dealer or at www. amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Amana brand advantages for our high-efficiency heat pump

- Comfort Speed Technology Designed to automatically adjust the speed of the compressor and condensing fan motor based on cooling demand – full, 100% capacity for extreme temperatures, and reduced capacity for milder days. A system with Comfort Speed technology may lower your energy costs when compared to a singlespeed unit that only runs at 100% on or 100% off.
- Copeland® ComfortAlert™ Diagnostics Advanced diagnostics constantly monitor your heat pump system, reducing failures and pinpointing trouble spots for a fast fix.
- ComfortBridge Technology Compatible Continuously monitors system performance for customized indoor comfort.
- SmartShift™Technology Specialized time-delay defrost technology allows for a reliable, quiet and smooth transition when units enter defrost mode.
- ▼ Factory-installed Bi-flow Liquid Line Filter Drier Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.
- ✓ Factory-Installed Heater Band and Suction Line Accumulator – Ensures refrigerant is ready even in extreme external temperatures.
- Quiet Operation An acoustically engineered sound control blanket helps reduce noise levels compared to units without sound control blankets.

EXTENDED SERVICE PLANS AVAILABLE

For even greater peace of mind, ask your dealer or visit our website at www.amana-hac.com for more details about Asure™, an affordable Parts and Labor Extended Service Plan for your entire **Amana** brand HVAC system.

A legacy of comfort

The impeccable reputation of an American original

Amana brand heating and cooling systems are a part of the enduring legacy of one of America's most recognized and respected brands. Originating eight decades ago in Amana, lowa, the brand is synonymous with long lasting, premium quality products — from home appliances to heating and air conditioning equipment. Chances are, you and generations before you have enjoyed the dependable performance and longevity the Amana brand continues to deliver.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR*** criteria. Ask your contractor for details or visit www.energystar.gov.

HVAC Communicating Control

ComfortBridge™ technology offers off-the-wall smart communicating systems capable of customizing energy-efficient performance, use of any single-stage thermostat, and more.
