- Ideal for mini-splits, PTACS, hotel units, and other tight fit applications
- Keeps mini-split coil and blower clean and fresh
- One MiniFresh® treats up to one 12,000 BTU indoor unit for up to 3 months
- Patent Pending

Description

ClenAir MiniFresh is not a perfume mask or cover-up. The unique ClenAir formula molecularly reacts with the airborne odor-causing compounds and eliminates them and other indoor pollutants leaving clean, fresh, air behind. The MiniFresh makes it easy to remove odors and improve the indoor air quality in the entire home or building by treating the air through the HVAC system.

Eliminates odors caused by mold, mildew, bacteria, pets, smoke, musty odors, water damage, fire damage, paints, chemicals, animal decay, stale air, garbage areas, sewer gases, skunks, and more!

Application

Use in mini split, PTAC, or other ductless HVAC systems. The MiniFresh can be installed on the return louvers of indoor units. It will be out of view and will work quietly to eliminate odors. MiniFresh mini split odor eliminator treats up to one 12,000 BTU indoor unit for 3 months.

MiniFresh®

Directions

MiniFresh Odor Eliminator - Mini Split Unit

1. Carefully peel away the top and bottom label to expose the vent openings.
2. Place the MiniFresh on top of the mini split system. Be sure that the exposed vents are in direct path of the airflow.
3. When the MiniFresh is completely shrunk or dried, it is time to replace it with a new MiniFresh. Lasts up to 3 months.
