

A Connected Home with DKN Residential Cloud Wi-Fi Adaptor for Ductless Systems

Enable remote control of Daikin Single and Multi-Zone indoor units through an iOS/Android App with the DKN Residential Wi-Fi Adaptor for Ductless Systems (AZAI6WSCDKB). Utilizing the same smartphone app as the DKN Cloud Wi-Fi Adaptor for VRV (AZAI6WSCDKA), users will enjoy peace of mind and quick access to monitor and control all of their indoor units (S21 and P1P2) from one app.

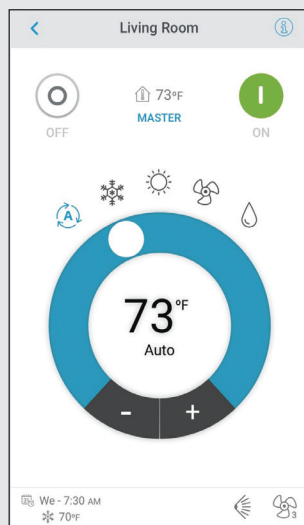

With the app, the adaptor provides: remote control and monitoring of indoor units' On/Off, mode, set-point, fan speed, louver position, room temperature, and error alert status from an iOS or Android smartphone. Voice control is also possible through *Google Assistant* and *Amazon Alexa*. It also provides Cloud API and Modbus® connection for integration with Home Automation Systems.

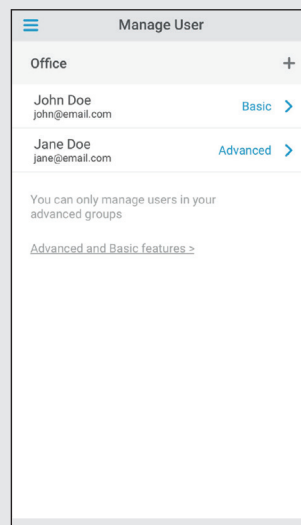

App Features

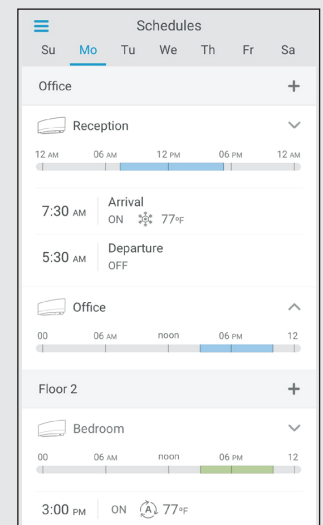

Control indoor units as a group (editable)

Indoor unit control and monitoring

Advanced/basic user authority

Schedule
