

# Enhanced Flexibility

## FDMQ Makes a Difference in Any Room

The FDMQ ducted concealed indoor unit expands on the current offering of single zone ducted systems by providing external static pressure capabilities of up to .6. This allows for longer duct runs and easy implementation of high MERV filters. The FDMQ unit can be converted from rear return-air configurations to a bottom return for installation flexibility. This completely concealed unit delivers heating and cooling comfort to a wide range of applications.

### **Features**

- » Energy efficient Up to 20.2 SEER, up to 10.6 HSPF, up to 12.7 EER
- » Available in .75 to 2 Tons
- Capable of providing external static pressures up to .6 in. Wg on all models
- >> Integral lift mechanism with 29-9/16" of lift
- Drain pan inspection port makes it easy to observe drain pan conditions
- » No optional adapter needed for DIIIconnection, link your unit into the wider building management system
- ... Low-ambient cooling capabilities down to -4°F (-20°C) with facility setting and air adjustment grille
- >> 12-Year Parts Limited Warranty\*

Complete warranty details available from your local dealer or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. If product installed in a commercial application, limited warranty period is 5 years.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

#### Standard Features:

#### **Hot Start**

When the heating operation starts or when the unit changes from cooling to heating, there is no cold draft released into the room.

#### **Powerful Operation Mode**

Pushing the POWERFUL button on the remote control gives you a boost in cooling or heating power for a 20-minute period, even if the unit is already operating at high capacity.

#### **Program Dry Function**

This gives priority to reducing the level of humidity in the room rather than room temperature

#### ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer. Visit www.daikincomfort.com

Daikin and its design are trademarks owned by Daikin.

The special anti-corrosion coating on the outdoor unit heat exchanger provides resistance to salt damage and atmospheric corrosion.

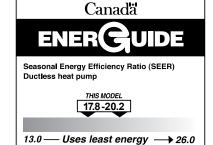

#### **Auto-Restart**

The unit memorizes the operation mode, airflow and temperature settings. Should there be a power failure when the unit is in operation, it will automatically return to the same operating conditions when the power is restored.

#### **Anti-Corrosion**

**FDMO**
