Mini-Floor Console	XK-19	MC20700140

XK19 Command Center allows fast & easy access to a large number. The following is a list of typical system features and functions support by the X19 controller:

Note: Some indoor models may not support specific system features or functions.
Always refer to the indoor unit Owner's Manual.

 On/Off - The On/Off button allows you to start and stop the system.
 Operating Mode - Allows users to select an operating mode (i.e. Cooling, Heating, Dry, and Fan Only).
 Fan Speed -The indoor fan (i.e. High, Medium, Low & Auto) can be adjusted for peak comfort and quietness.
 Room Setpoint – Adjust room setpoint temperature between 61 deg F to 86 deg F (16 ~ 30℃ range).
 Timer Mode - Program a time period (i.e. 0.5-24 hr.) to which the system will turn ON or OFF.
 Sleep Mode – Automatically adjust room temperature during your sleep time (i.e. 0.5-24 hr. range).
 Turbo Mode – Turbo will force system to run at higher speeds to reach the desired room temperature faster.
 X-fan Mode - Removes moisture build up on coil when the system is turned OFF to prevent mold and mildew.
 Privacy Lock - Privacy Lock to prevent unauthorized access to the controls and tampering with system settings.
  ***   Additional system features and functions my be found in the indoor unit Owner's Manual.   ***
