

Dampers

DSG

28

Description

- balancing damper for use in systems where a complete shut-off of air flow is not required
- gasketed, shaft-mounted load-bearing bushing
- integral shaft-blade assembly
- 2" sheet metal insulation stand-off
- locating blade quadrant w/damper position indicator
- gasketed shaft penetrations to minimize leakage
- full fitting body assembly with bead stop
- 2" shaft extension available
