RedLINK Connects

RedLINK™ Wireless Comfort Systems

Your Customers Are Connected. Are You?

Wireless Technology Smart Phones.

Social Media.

Today, people are finding new and better ways to connect.

The Resideo exclusive RedLINK Wireless Technology helps you better meet your comfort needs. Our full suite of wireless-enabled comfort systems connects you to expanded business opportunities.

With Total Connect, Resideo offers you a customized solution that works together with the lifestyle and budget of your customers and grows with their changing needs. Help your customers make the most of their home by taking control and staying connected.

Total Connect is ideal for anyone with a smart phone, vacation home, investment property, or business.

Don't Just Connect. Total Connect.

Once registered, your customers can customize their system and alert settings, download free mobile apps and more at mytotalconnectcomfort.com.

Total Connect enables users to:

View and change their HVAC system settings (Heat, Cool, Off, Fan, Auto, EM Heat, Dehumidifier, Humidifier).

View and set the temperature.

View indoor humidity.

View outdoor temperature and humidity¹.

Voice control of thermostat – say “Hello Thermostat” to activate, then use preprogrammed voice commands for thermostat adjustments.

Access multiple thermostats if the system is zoned.

Access multiple locations if more than one system is connected.

Receive temperature and humidity alerts via e-mail.

Access over 90 system alerts via the web.

Get automatic upgrades as new features are available.

Wireless Technology

Clean Design Meets Clear Sales Potential

The satisfaction your customers get from the comfort of experiencing the sleek design and straightforward functionalities of the Prestige thermostat will bring them back to your business for all their HVAC needs.

Delta T* Diagnostics and Alerts

Based on limits set at installation, your customers can be alerted with instructions to contact you for assistance when their system does not operate as expected. Alerts give customers a sense of security while the data logs for those alerts, as well as user interaction and system performance enable you to service or replace the equipment prior to a loss of heating or cooling.

* All Prestige IAQ systems come standard with a return and a discharge air temperature sensor to measure Delta T.

Comfort and Connection - At a Whole New Level.

One Control is Always the Right Control

Now with selectable Residential or Commercial functionality, advanced staging control options, and assignable input and output relays, Prestige offers you the flexibility to use one thermostat in virtually every application.

Alerts and Interaction Logs

A searchable history of alerts and setting changes let you know if there is a system malfunction or if the issue was caused by user error.

Customizable Service Reminders

Remind your customers when it's time to call you for service, when their warranty is expiring, or customize your own alerts.

RedLINK Wireless Comfort Systems

Wireless FocusPRO™

Thermostats

Wireless FocusPRO thermostats go anywhere and solve any problem. Now you can easily relocate a thermostat to a more suitable location, install multi-stage equipment, cool retrofits when wires are not available, or add zoning.

EConnect™

Wireless Thermostats for Electric Heat

Thanks to RedLINK communication and the simple wiring of an Equipment Interface Module your customers can experience the comfort they want controlled from a wireless thermostat located exactly where they want it.

TrueZONE™

Wireless Zoning Systems

When used with our RedLINK-enabled TrueZONE panels, the Resideo Wireless Adapter lets you add zoning to any home or more zones to an existing system.

Connect to More Sales with Accessories

RedLINK accessories give your customers the option of customizing their system to achieve their control, comfort and convenience needs. With installation that requires no more than a few minutes and the touch of a button, RedLINK offers you the opportunity to increase profitability through add-on sales.

Equipment Remote Module

Lets control devices communicate wirelessly with outdoor two-stage compressors, heat pumps or an indoor boiler.

Portable Comfort Control™

Gives customers freedom to make adjustments everywhere in the system from anywhere in the conditioned space.

Wireless Entry / Exit Remote

Easily manage your comfort and energy consumption by controlling your thermostat from anywhere in the home or building..

RedLINK Internet Gateway

Connect to any wireless-enabled thermostat to access Total Connect Comfort Services.

Wireless Indoor Air Sensor

When paired with a Prestige IAQ thermostat the Wireless Indoor Sensor enables customers to change the sensing location of the thermostat, average temperature in large rooms or monitor humidity.

Wireless Vent and Filter Boost Remote

One-touch 20-40-60 minute timed ventilation and filtration boosts for the home. Compatible with all equipment and air cleaners controlled by a RedLINK thermostat.

Wireless Outdoor Air Sensor

Installed on the exterior of a home or building, the sensor will display the outdoor temperature and humidity on all RedLINK-enabled thermostats and the Portable Comfort Control.
