THE GAME CHANGER IS HERE!

The dual-display **CL450 HVAC Clamp Meter** is a game changer for the HVAC professional. This True RMS, CAT IV meter offers DC microamps, differential temperature, digital temperature calibration, inrush current, and many other easy to perform functions for key HVAC applications.

DC Microamps

- Measures DC current across the flame sensor
- Confirms flame rectification

Differential Temperature

- Dual display reads T1 and T2 measurements as well as displays the differential temperature
- Used to troubleshoot many HVAC applications

Inrush Current

- Measures surge when electrical device is started up
- Critical for the installation, diagnostics and maintenance of electrical motors

Digital Temperature Calibration

- Temperature calibration corrections in field with a push of a button
- No more adjusting the potentiometer with a screwdriver

Additional accessories available for this HVAC Clamp Meter

Replacement K-Type Thermocouple
69435

K-Type Temperature Pipe Clamp with Adapter
69140

Adapter, K-Type to Banana Plug
69146

High Temperature K-Type Thermocouple with Adapter
69142

K-Type Temperature Probe with Adapter and Case
69144

Magnetic Hanger
69417

Thermocouples are NOT intended for use on people or animals.
