

Submittal Form: Duct Support Webbing

Trade Pro provides Duct Support Webbing that is waterproof, grease, oil, and acid resistant, and has low smoke and flame development. For maximum strength put the two ends together and fold it over before securing to the ceiling or joist.

| Item No. | Description | Size | Quantity per Case |
|-----------------|-------------|-------------|-------------------|
| TP-WEBBINGSTRAP | Black | 1 3/4" Wide | 6 |

Best Installation Practices

The Air Duct Council recommends supporting flex duct at manufacturers recommended intervals or no greater than 4'. Maximum centerline sag shall be no more than 1/2" per foot. Hanging Strap must be a minimum of 1-1/2" wide. For more information please visit the Air Duct Council "Supporting Flexible Duct" section 4.6.
